Adelphia Gateway, LLC; Notice of Intent To Prepare an Environmental Impact Statement for the Proposed Marcus Hook Electric Compression Project and Schedule for Environmental Review

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental impact statement (EIS) for the Marcus Hook Electric Compression Project (Project), proposed by Adelphia Gateway, LLC (Adelphia) in Delaware County, Pennsylvania. The EIS will tier off Commission staff's Environmental Assessment (EA) and its findings and conclusions for the Project issued on February 9, 2021, and respond to comments filed on the EA.¹ The EIS will assist the Commission in its consideration of the Project's contribution to climate change and its decision-making process to determine whether Adelphia's proposed Project is in the public convenience and necessity. The schedule for preparation of the EIS is discussed in the "Schedule for Environmental Review" section of this notice.

The National Environmental Policy Act Process

The production of the EIS is part of the Commission's overall National Environmental Policy Act review process. Commission staff will independently analyze the proposed Project and prepare a draft EIS, which will be issued for public comment. Commission staff will consider all timely comments received during the comment period on the draft EIS and revise the document, as necessary, before issuing a final EIS. Any draft and final EIS will be available in electronic format in the public record through eLibrary² and the Commission's natural gas environmental documents webpage (<https://www.ferc.gov/industries-data/natural-gas/environment/environmental-documents>).

Schedule for Environmental Review

This notice identifies the Commission staff's planned schedule for completion of a final EIS for the Project, which is based on an issuance of the draft EIS in June 2021.
